# How this Service Delivery Agreement assists the Member of the Mayoral Committee in their oversight role?

This document transforms the Member of the Mayoral Committee's role from a passive approver of documents to an active executive leader. It provides:

- 1. **Clarity and focus:** The Member of the Mayoral Committee knows exactly what is expected, preventing them from being bogged down in operational minutiae.
- 2. a tool for holding officials accountable: The Member of the Mayoral Committee can use the targets in this Service Delivery Agreement (which should cascade down to the Municipal Manager and Chief Financial Officer) to ask tough, specific questions.

("Chief Financial Officer, our target is to reduce creditor days to 30. What is your plan to achieve this, and what are the weekly milestones?")

- 3. A defence mechanism: It provides a documented basis for the Member of the Mayoral Committee 's decisions and priorities, shielding them from unfounded political pressure.
- 4. A measure of success: It moves the conversation from "are you busy?" to "are you effective?" based on pre-agreed, measurable outcomes.

## Recommendation

This framework should be adopted and then socialized with the Municipal Manager and the Chief Financial Officer to ensure their full buy-in and understanding, as they are responsible for the operational achievement of these targets
